lareniaf@aich.org

Roundtable Vision

The roundtable is a gathering of Minority HIV and AIDS leaders from Faith, CBO's, Health Policy, People Living with HIV/AIDS Faith Leadership, NYC Department on Minority Health and the Office of Minority Health Region II, we hope to share perspectives on the current HIV and AIDS issues facing Minority communities in NYC and what are some of our next steps in reducing rates of new infections.

As a leader, we are hoping that you will be able to participate on this day to share your thoughts, reflections and strategies on advancing HIV & AIDS concerns for the communities you serve.
