

YOUR PRINTING JOBS CHANGE LIVES!

Competitively priced, high-quality printing...with a twist!

WORKFORCE ENTERPRISES (WE-NYC)

is a New York-based social enterprise whose purpose is to train and place New Yorkers with barriers to employment in sustainable careers in the printing and document management industries.

YOUR PRINT JOBS ARE CRITICAL TO OUR SUCCESS:

Your printing jobs help finance WE-NYC's workforce development program and provide a 'real world' training environment that informs our curriculum. Our commercial print shop is operated by experienced professionals who utilize your projects to illustrate proper production and quality control techniques.

For most students, this training is an opportunity for a better life. Your work facilitates our ability to create a setting that is equivalent to, or more rigorous than, what they will experience when they are placed in a job; and enhances their prospects for sustainable employment.

WE-NYC'S APPROACH BUILDS SUCCESS:

Our holistic learning approach integrates classroom study with practical training in a 'real world' print shop environment. This "real world" work experience infuses our training program with energy and a heightened sense of purpose only a competitive work environment can provide; and it enhances our students' likelihood of achieving success and reaching their employment goals.

We would like an opportunity to compete for your copying and printing business.

Give us an opportunity to compete for your printing and copying business.
